

WP 1414

Propeller Cleaner

For propeller blades, shafts and housings, softens and removes barnacles, easy to use.

BENEFITS

- Safer replacement for Hydrochloric Acid.
- Safe on stainless steel, bronze and aluminium
- Non-fuming
- Quick and easy to use

DESCRIPTION

Heavy duty Cleaner for metal propeller blades, shafts and casings.

Suitable for stainless steel, bronze and aluminium propellers.

Will remove calcium deposits and soften barnacles.

Superb results are easily achieved by simply brushing onto surface and washing off after 5 – 10 minutes.

PHYSICAL PROPERTIES

Physical state: Liquid

Appearance: Clear. Orange. Liquid

Colour: Orange.

Odour: Mild.

Flammability (solid, gas): Non-flammable.

Density: 1.18 g/cm³

Solubility: soluble in water.

PACKAGING

750 ml

3.25 Lt

INSTRUCTIONS FOR USE

Remove any grease or hydraulic oil from area to be cleaned.

Place required amount of Propeller Cleaner into a container suitable for dipping a brush.

Brush Propeller Cleaner over propeller blades, shafts and casings with a standard paint brush. Agitate if required or leave to soak for 5 – 10 minutes. Barnacles will soften and can then be removed with a brush/wire brush if necessary.

Wash propeller with fresh water to remove all product residue. Once dried, blades can be finished with a suitable grade polish.
